### The Royal Blue And Gray

So much has gone before this day  
Our hearts with pride respond,  
While Steel-High forges ever onward,  
Strengthening this bond.  
Her banner — Royal Blue and Gray —  
High o'er this timeless frieze  
Inspires our minds to stalwart deeds  
And oaken destinies.

Beyond her hill the rising sun  
Climbs to the wind-swept sky;  
Before her doors the mighty oak  
Its branches lift on high.  
The Susquehanna's surging stream  
laps swiftly past the coast.  
As time flows on to time unknown  
past mankind's tide-spun boast.

To look upon the school we love,  
to breathe her spirit free,  
To chant her bold, undying fame,  
In this is majesty.  
May Steel-High's banner ever wave  
In glorious array!  
Forever live our tribute song  
The Royal Blue and Grey!

## FOREWORD

We the graduating class of nineteen hundred and sixty-six have chosen as the theme for our yearbook — loyalty. We agree loyalty is an abstract subject which is difficult to picture. However, throughout our years at Steel-High we feel that we have developed and displayed a deep sense of loyalty to our school. It is our sincerest wish that a small portion of this loyalty will remain with us throughout our future years. We further hope that those who remain behind will feel and portray this same sense of loyalty throughout their years at Steel-High.

# DEDICATION

We the Class of '66 have chosen to dedicate this year's Steel-High to Dorothy S. Ferencic. We are grateful to Mrs. Ferencic for her deep concern and loyalty to us during our years at Steel-High. We wish her success and happiness in all her future endeavors.

Dear Class of '66,

The dedication of your yearbook is received with great pride and honor. The school, the faculty, and I are proud to have played a part in the first great achievement of your life, graduation from Steelton-Highspire High School.

We hope that you uphold the high ideals and principles of your school and use the knowledge acquired to fulfill life's obligation to yourself, your community and your God.

My best wishes for your health, happiness and success.

Mrs. Dorothy S. Ferencic

"And in closing, . . ."

"Let me help you hold it."

"I know you're not one of the students anymore but . . ."

"It's my turn for the apple."

"Don't cry, we'll win next week."

"I chased him to here."

"Now OUR TOWN is a serious play."

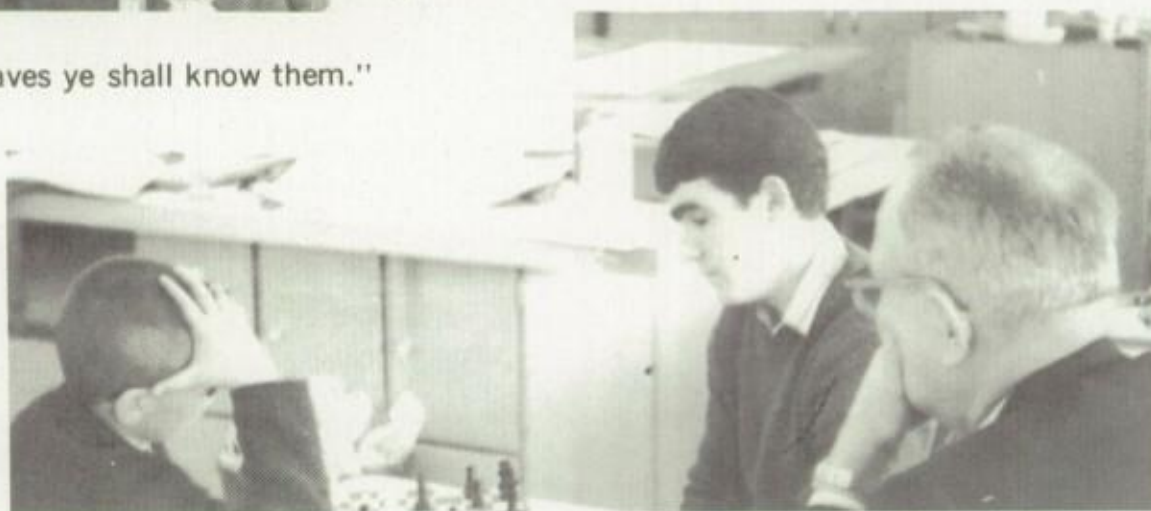

"If you don't shut up, I'll throw this."

"By their leaves ye shall know them."

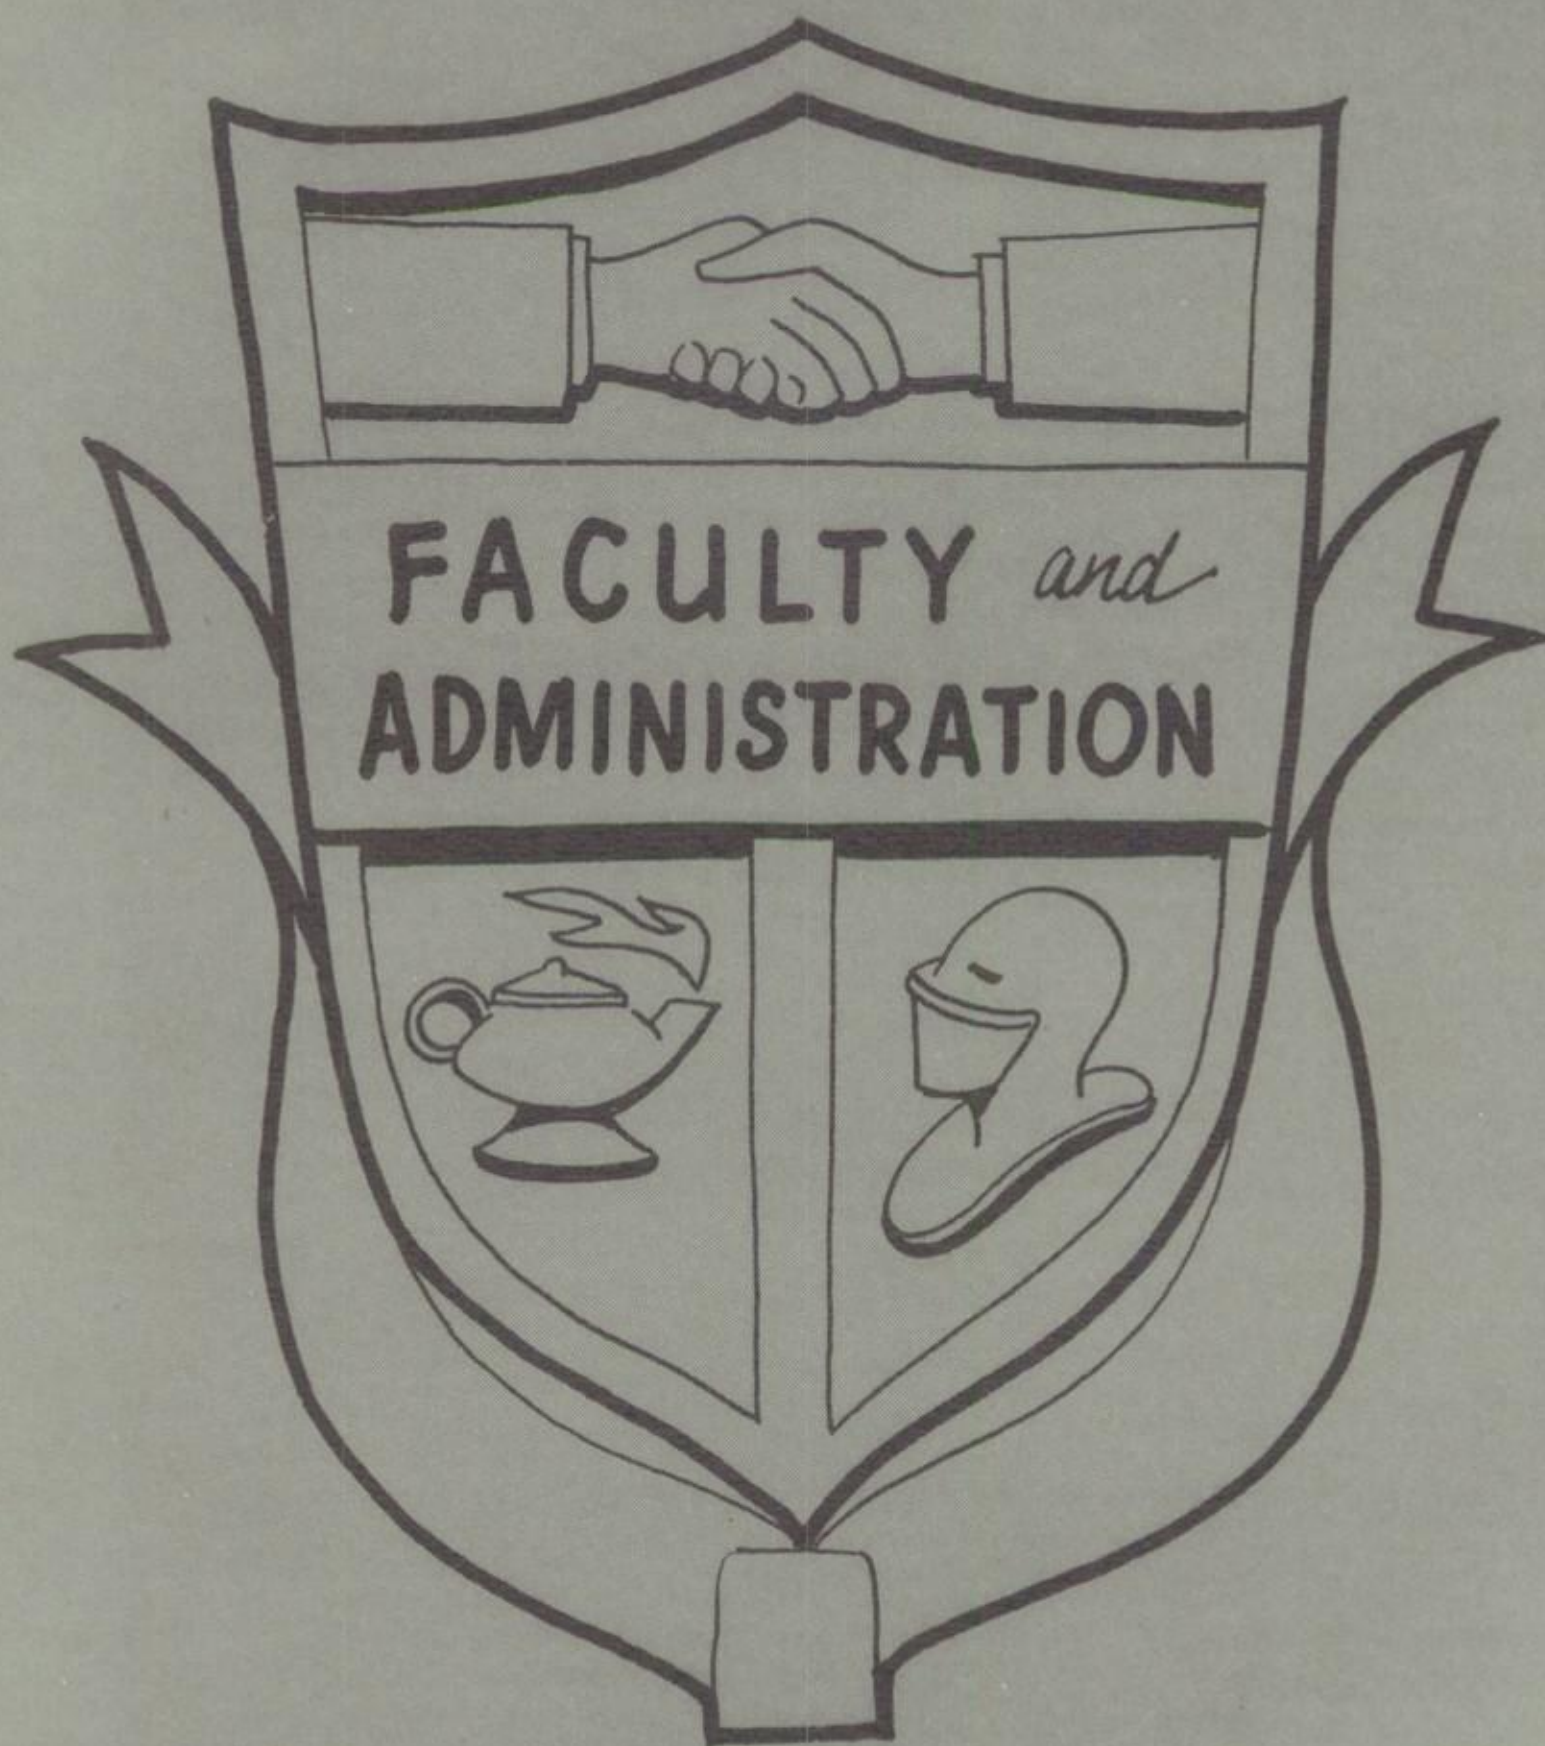

"Dear Abbey, These students . . ."

"You just lost."

## ENGLISH — LANGUAGE

The English Department has a very basic responsibility to all pupils of the educational system. As one cannot live alone today, it is the awesome duty of the department to free pupils to capable communication through the study and process of reading, writing, speaking, and listening. Proficiency in English is an asset; in fact, it is the very foundation and building block for self-education.

The department, through the study of the various literatures, helps the pupils to become acquainted with better reading material. Literature offers the opportunity of travel and the understanding of life. In brief, this study enables pupils to live lives more fully than the adjacent boundaries of direct experience make it possible.

The department is making every effort possible to give the students of Steelton-Highspire Junior-Senior High School the necessary background for success in their chosen endeavors.

The study of a foreign language helps promote self-expression. The students develop the ability to understand, speak, read, and write the language with reasonable accuracy and ease. It develops good judgement in the use of a large number of foreign words in the English language so that the vocabulary may be enriched. It develops the ability to understand the increasing number of words and phrases found in our literature, movies, and television. It gives the students the opportunity to understand some foreign people and their ways of life.

## MATH AND

All pupils in grades seven to eleven inclusive are enrolled in mathematics classes at Steel-High. The seventh and eighth grades all take the "new math" while beginning in ninth grade, pupils choose either general or academic math courses and begin to specialize, taking those courses that will best prepare them for future endeavors.

## SCIENCE

Science today plays an important part in everyone's life. You may study it to help you better understand yourself and the world in which you live. You may ignore its study and still be enslaved by its production try.

What would life be for modern man without all his clever devices and methods for saving work and time? How we would miss electricity, city water, fast transportation, radio and television, daily papers — the thousand and one things so many of us take for granted.

We offer our students of Steelton Highspire High School an opportunity to study General Science, Biology, Chemistry, Physics and Earth and Space Science.

We hope your study of science during your years here will culminate in wisdom to use your knowledge to make this a better world for all mankind.

The lives of all individuals are affected by business relationships. No phase of modern life is exempt from association with business activities. We must all, in our daily living, mix with business, therefore, business education is an important part of all education.

Business education contributes toward a better understanding of every day business for all students and makes its contribution to general education by giving to those who desire it the necessary vocational training.

Social Studies is more than teaching children some facts about city, county, state, nation and world governments and people. It is more than memorizing or familiarizing themselves with the Declaration of Independence or the Constitution of the United States or other dates, and facts.

To define, or consign, Social Studies to such a narrow base would be an admission that the study of history is static and turns only backward to the past. But social studies deals with a system that can help meet the stress and strain of a dynamic world that is forever on the march.

The ultimate aim of our social studies course at Steel-High is to assure the forthcoming generations a structure of men and women mentally designed to preserve the free man and the free governments.

Special Education

The term "Pupil Services" is used to identify a closely related area of service in education distinct in purpose and formation from instructional services and administrative services. The focus for each of the Pupil Services is the individual pupil in an educational setting.

Committed to a belief in the infinite value and worth of the individual person, the schools of

Pennsylvania strive to promote the maximum development of the potentialities of every pupil. The major responsibility of the school is directed toward the instructional program, and to make the educational opportunities effective, it is necessary to provide certain supportive services for pupils who encounter difficulties in participating constructively in the educative process.

# CLASS SONG

"A Tribute"

Through all the passing years,  
We've come to love and always honor,  
Our royal blue and grey,  
More each passing day,  
Memories will stay.

Our theme will always be,  
Loyalty to friends and teachers,  
Those who helped us along,  
Teaching right and wrong,  
This our tribute song.

So we will try to be,  
People folks will long remember,  
Though creeds and races mix,  
Always reminisce —  
Our class of '66.

"Where's that banana I put in here last month?"

"You made it, you eat it!!"

"Now, if I were coach, I'd do plenty."

"Put the coconut in the bowl!"

"I'm so sleepy, I could just sleep in this locker."

"Young man, don't smile, Uncle Sam wants you, too."

"Whoo! Whoo!"

"Don't cry, I'll dissect the frog today."

"School was hard today, we learned to shake hands."

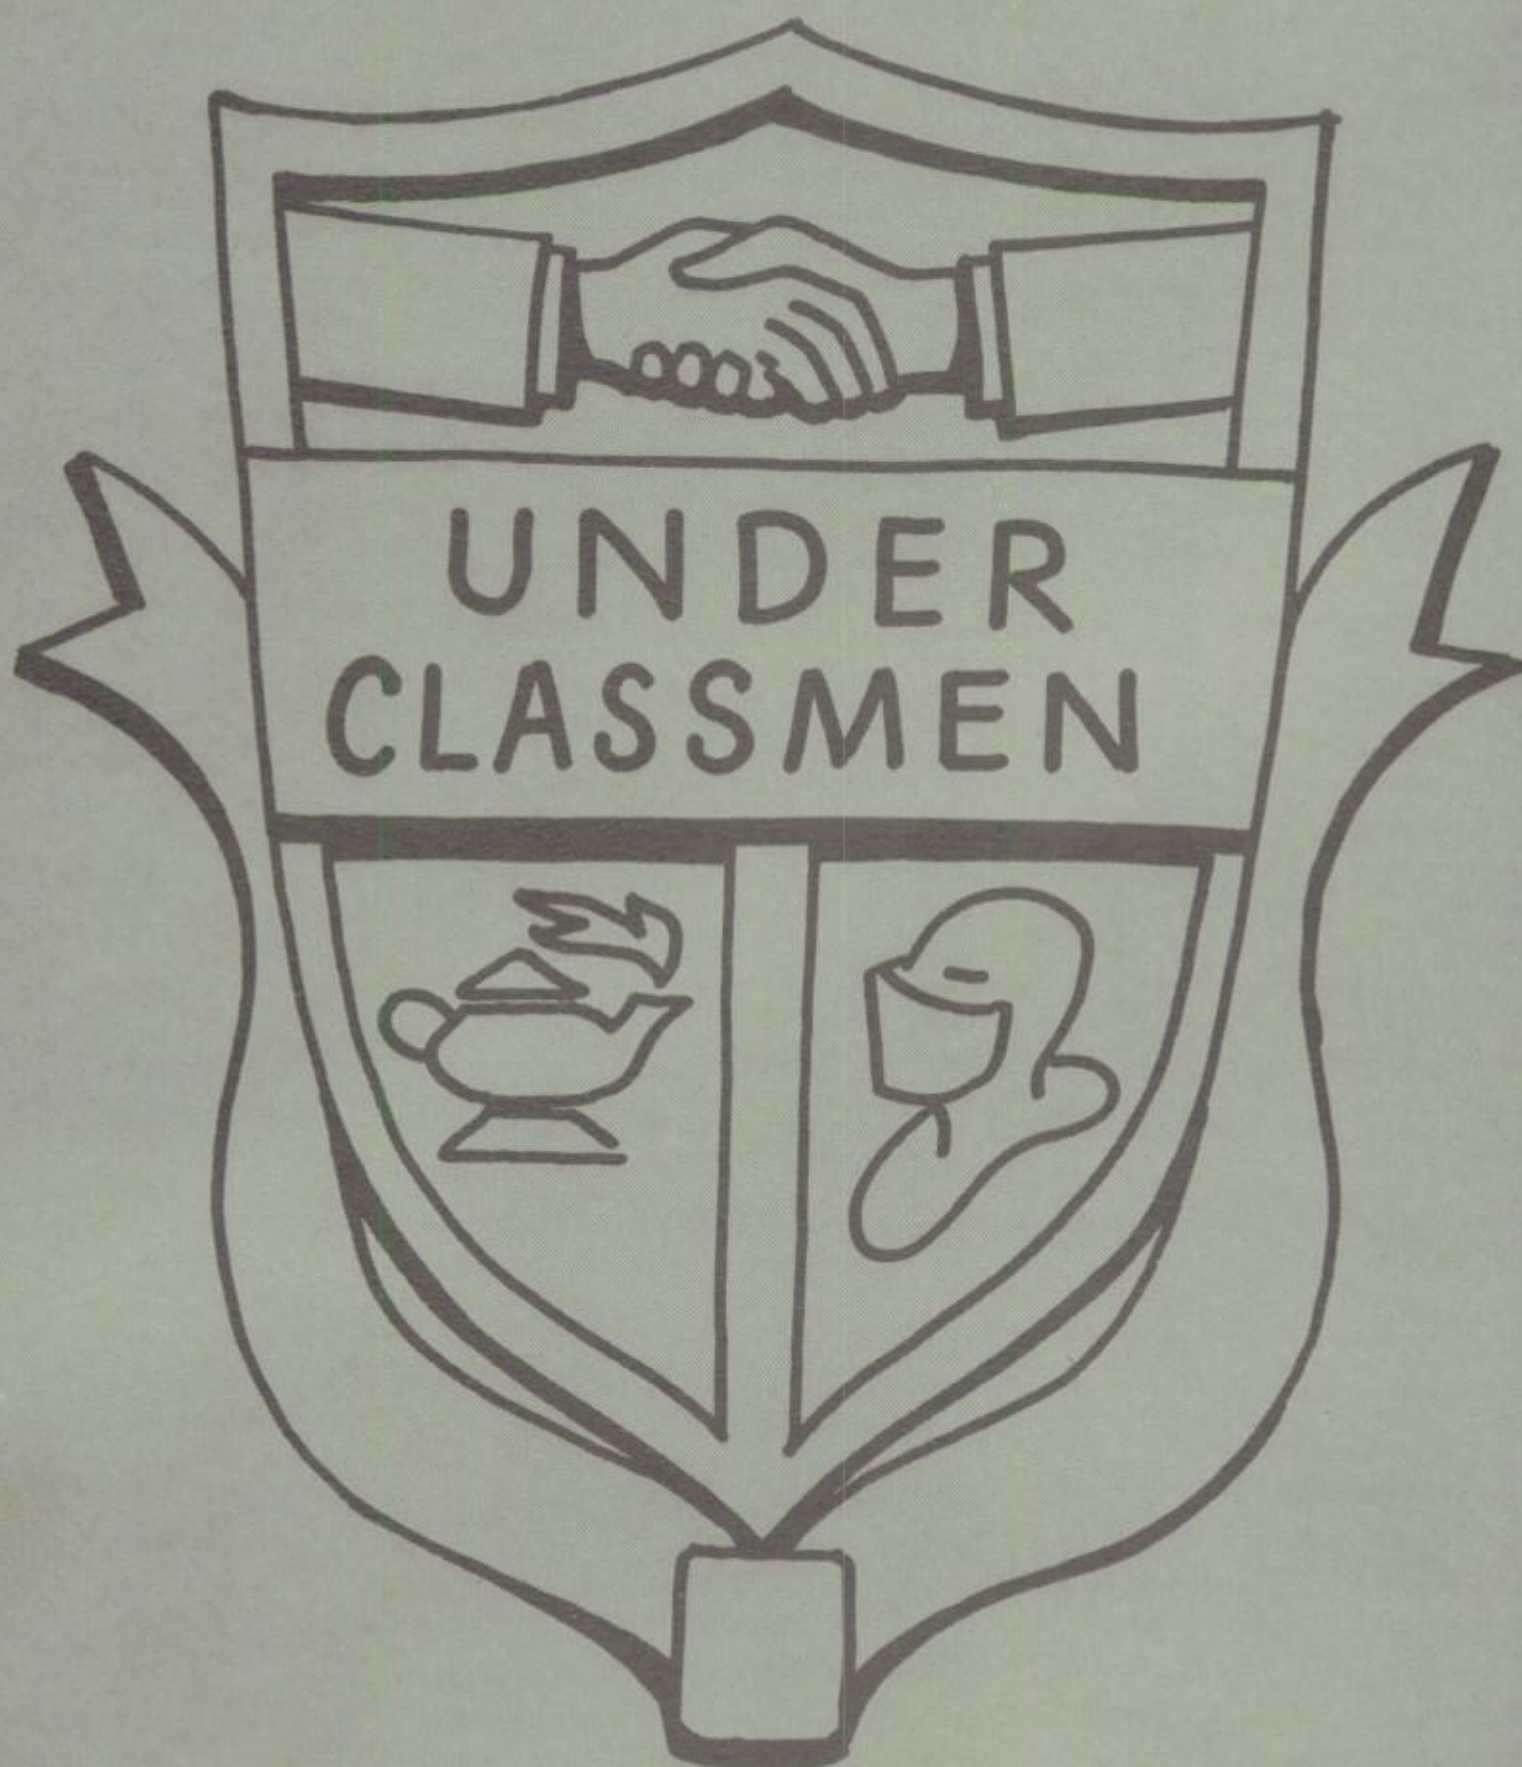

"And in this many days, we'll be looking in instead of out."

"And after she told me that, I said . . ."

Heads up handsome!

Stick 'em up!

Is it a bird, is it a plane?  
No, it's Underdog!

Where's the chair?

What really goes on  
in there?

Now, after you've been  
pinned . . .

Get him or it's  
curtains!

The football, Stupid — not his head!

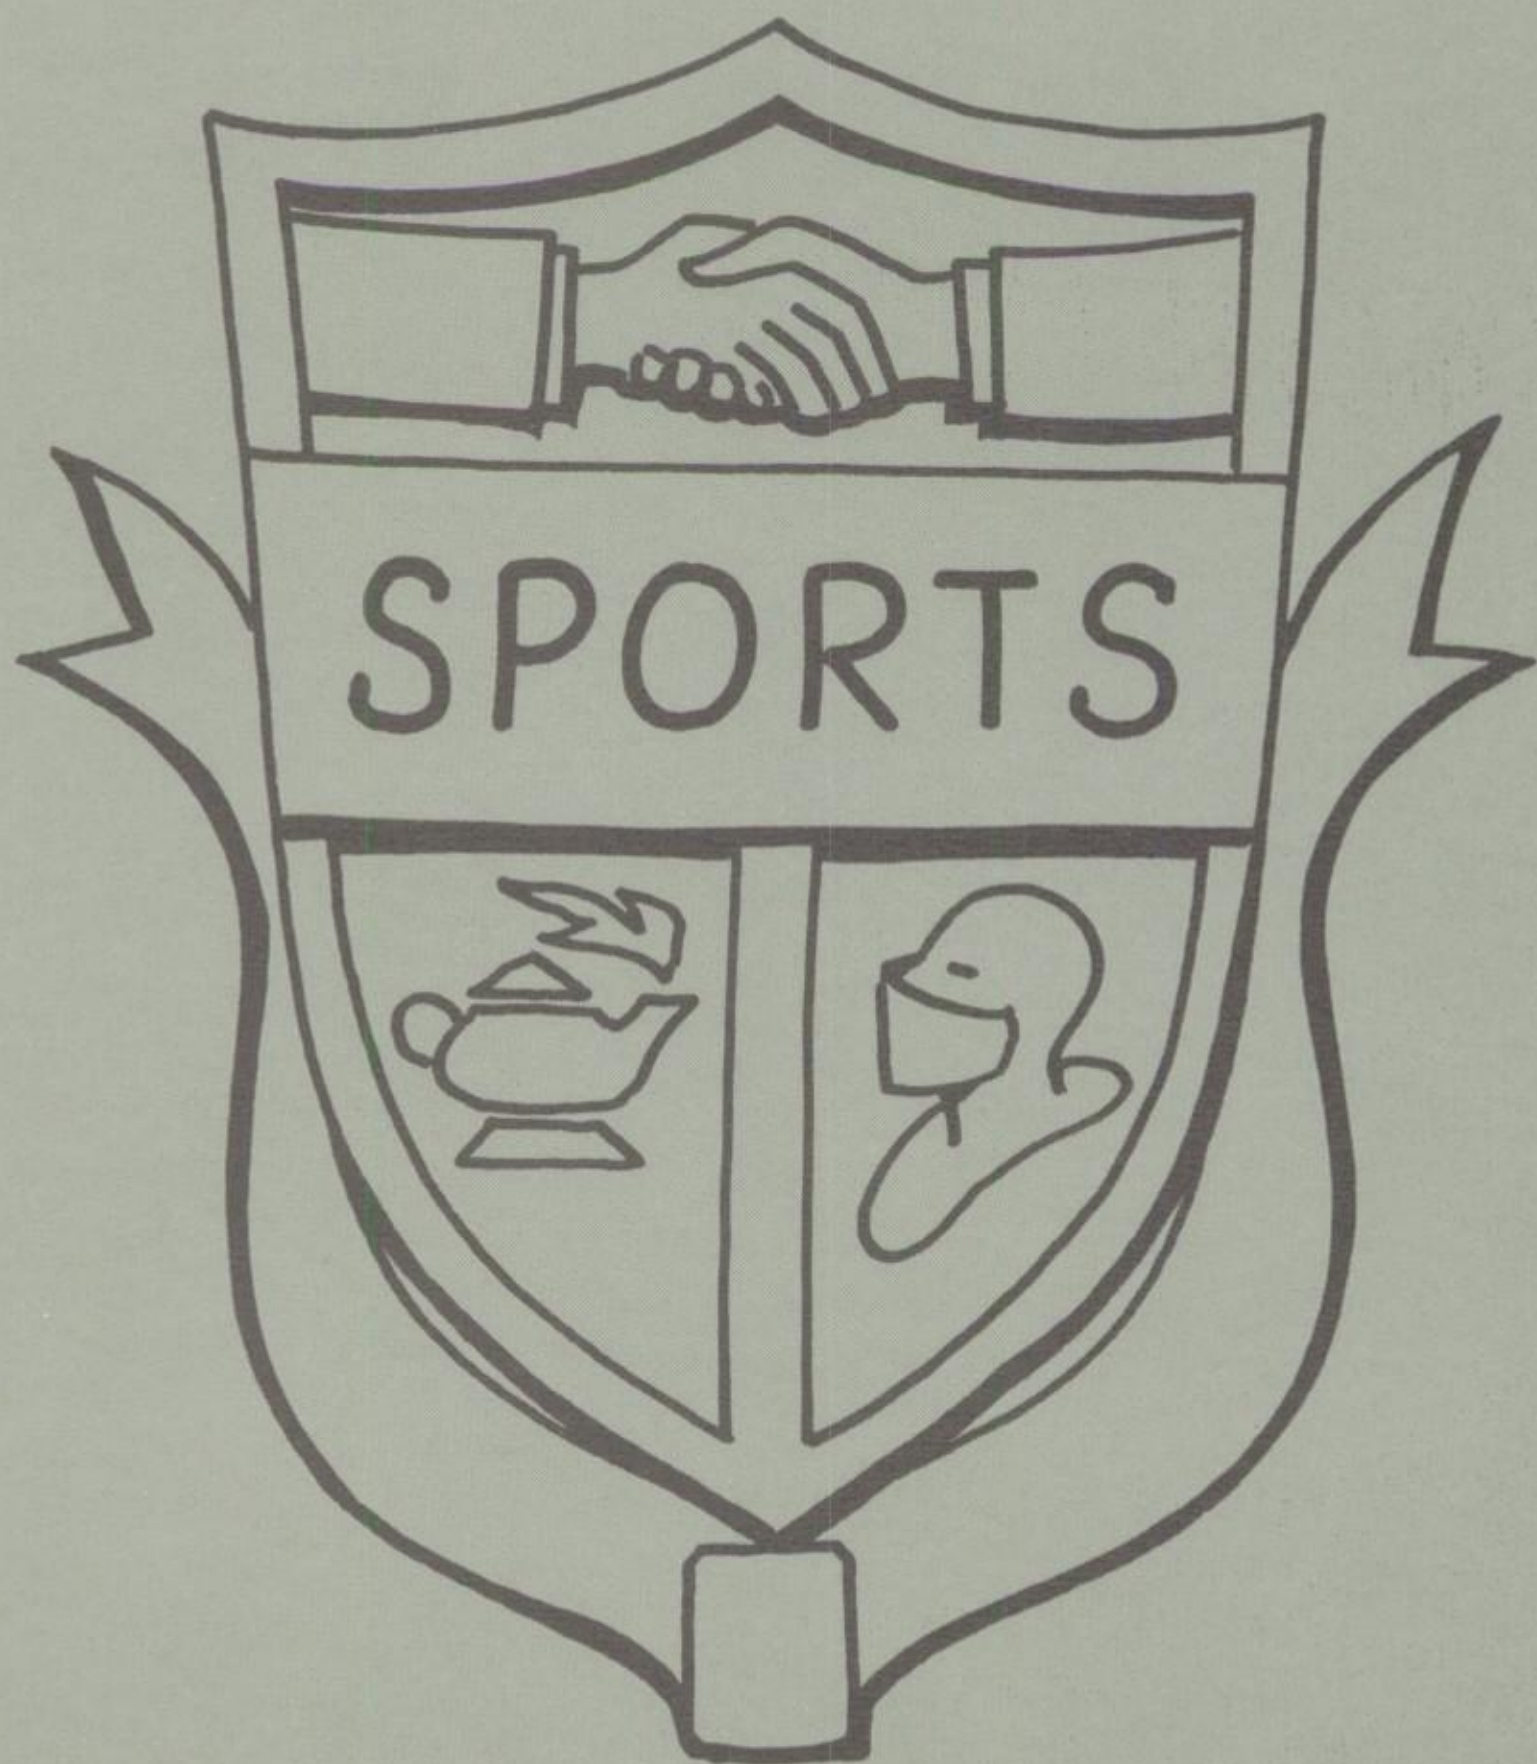

This is more fun than a barrel of monkeys.

Hey! That's **my** quarter!
